- \$250 for a team of one to three people
- \$350 for a team of four people
- \$450 for a team of five
- \$500 for a team of six

## EXPERIENTIAL SITE VISIT:

### Del Lago Academy

**FOCUS: Interdisciplinary and Worked Based Learning and how they work together**

Participants will have an interactive experience:

- Get a first-hand look at the Linked Learning components in action including the academic and career technical integration, the role and use of work-based learning and how students receive the supports needed
- Analyze the learning and teaching in a Linked Learning environment for how it includes project-based instruction and an interdisciplinary approach
- Understand how work-based learning compliments the instruction
- Gain perspective from students on successes and challenges
- Observe the culture of the school and understand it's unifying nature
- Understand how the culture is maintained
- Understand how special education and second language learners are accommodated
- Observe the d-school influence and how it creates a collaborative work environment
