EXPERIENTIAL SITE VISIT

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT FOCUS: Linked Learning Implementation and Partnership Development Strategies

This two-day event allows you to

- See how combining strong site and district leadership with partnerships is integral to building and sustaining a system of pathways
- Understand how the four core components of Linked Learning are implemented in four schools
- Learn how pathway teams function as an effective community of practice to support college and career readiness.
- Visit one of the four featured schools

To see highlights for each day, turn the page.

Day 1 – Feb. 22

FOCUS: High School Site Visits

- Overview of the four components of Linked Learning.
- Hear from and engage with district and site leaders who have been implementing Linked Learning systemically in four unique contexts.
- Visit one of the following four schools:
 - Arthur A. Benjamin Health Professions High School
 - Hiram Johnson High School
 - Rosemont High School
 - School of Engineering and Science

FEES – At this time the max team per district is six.

- \$250 for a team of one to three people
- \$350 for a team of four people
- \$450 for a team of five
- \$500 for a team of six

Day 2 – Feb. 23

FOCUS: Partnership Strategies

Participants will have team time, and the opportunity to:

- Explore promising partnership development strategies to increase impact, improve the quality of regional linked learning approaches, and develop systems needed to grow and scale opportunities across your region
- Design partnership models for systems change that directly apply to your own context to support a system of high quality pathways.
